

# LIVEODDSTV TAB EXOTICS

The exotics channel on LiveOddsTV combines the most favoured 48 permutations of both Exacta and Quinella pools. This helps win punters see what exotics punters are betting on and exotics punters advanced knowledge of what their bet is likely to pay should they make it. In the case of dog racing coverage of Exactas, punters can see all but the longest 8 permutations, something unprecedented with standard teletext coverage.
